# Comprehensive Population Analysis: Tables, Treemaps, and Temporal Trends

A multi–faceted view of population dynamics across humans, farmed animals, and wildlife
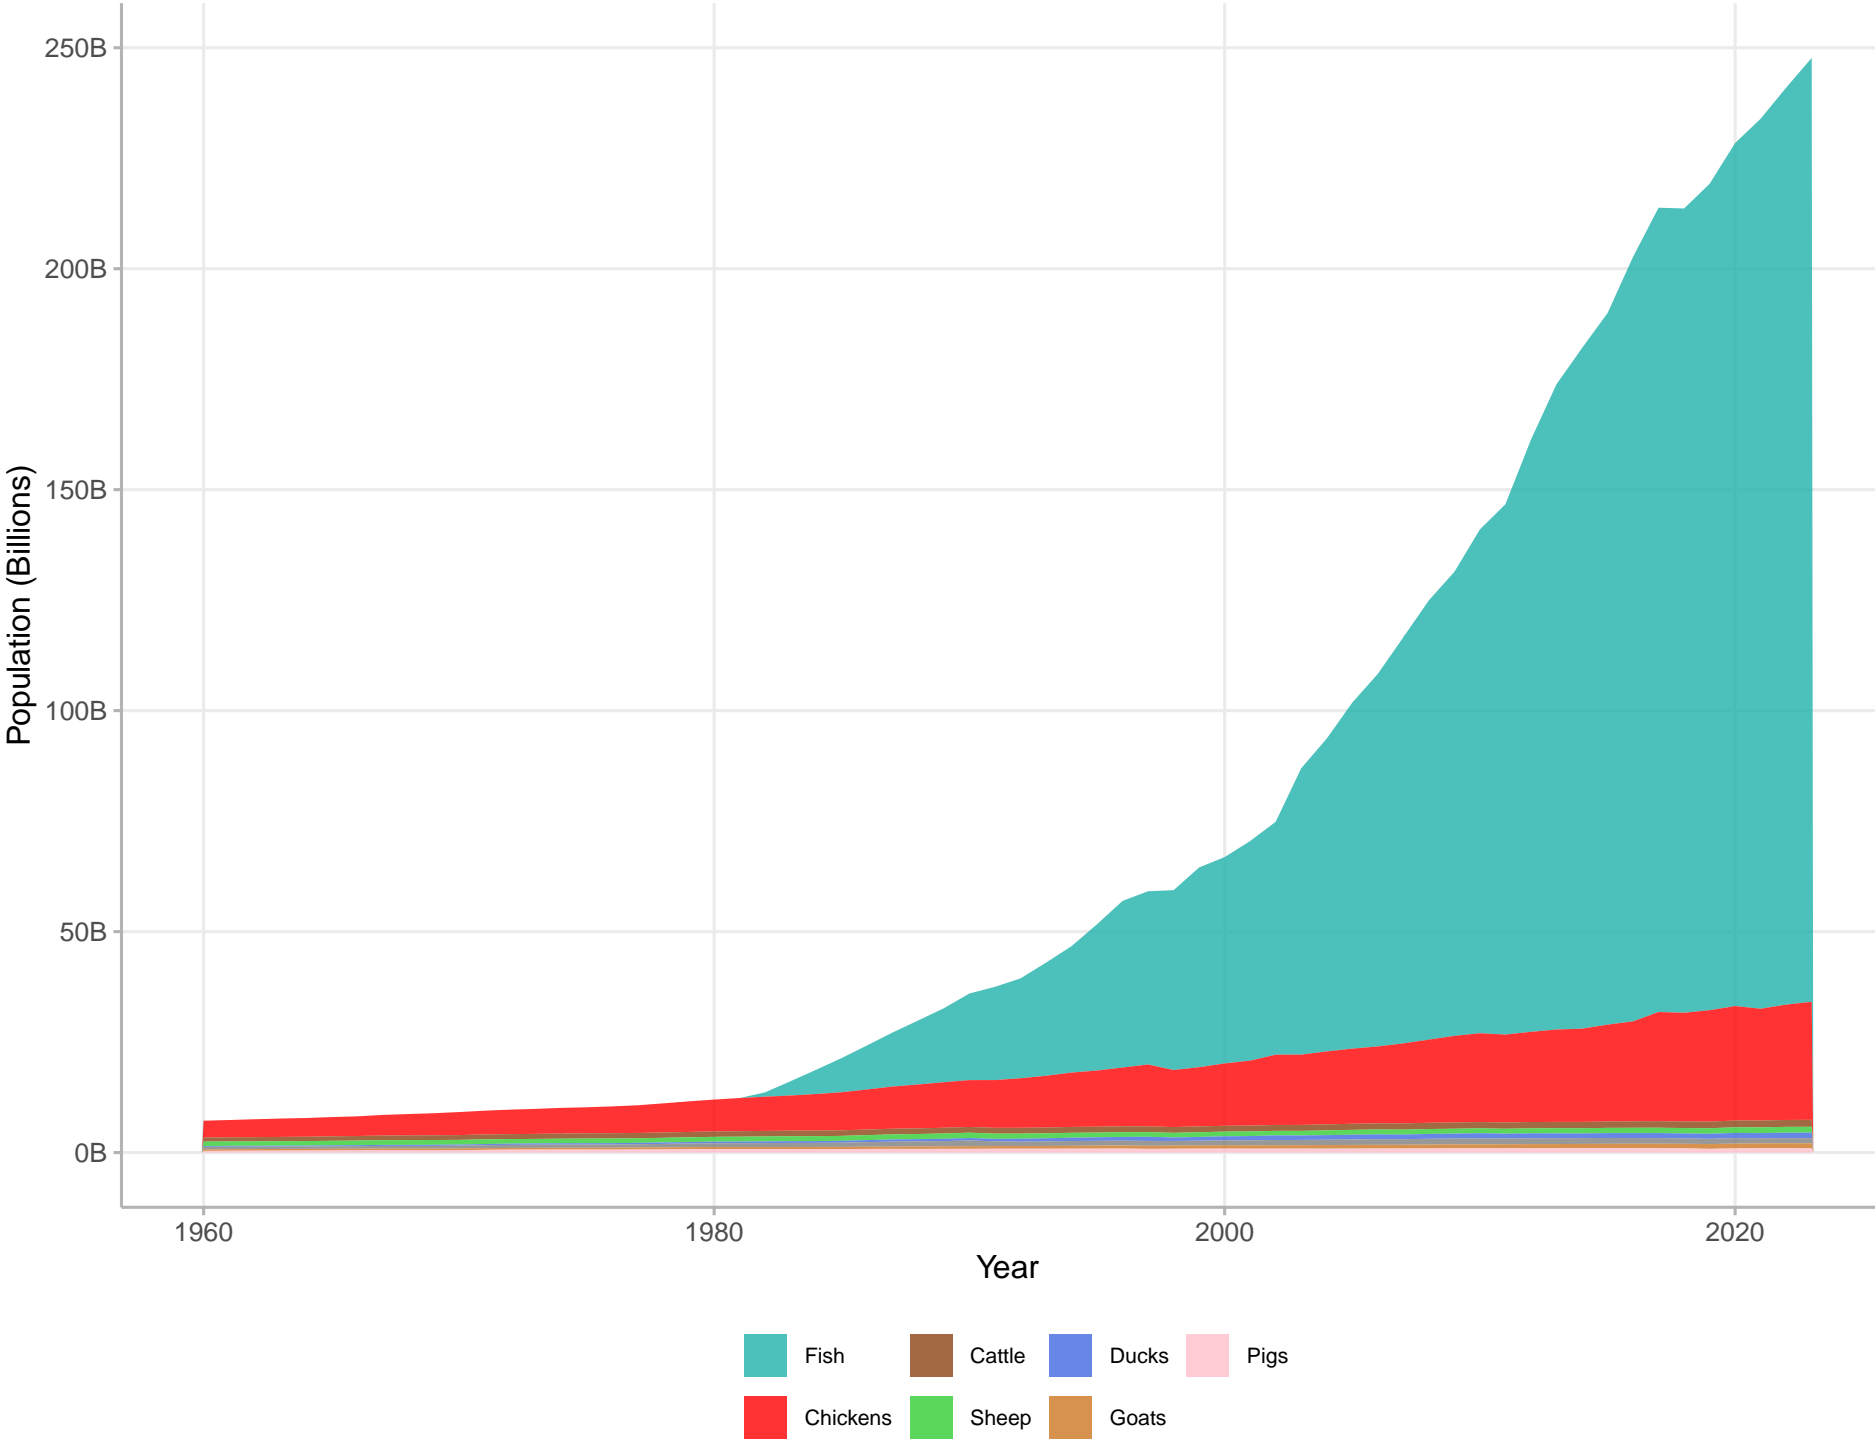

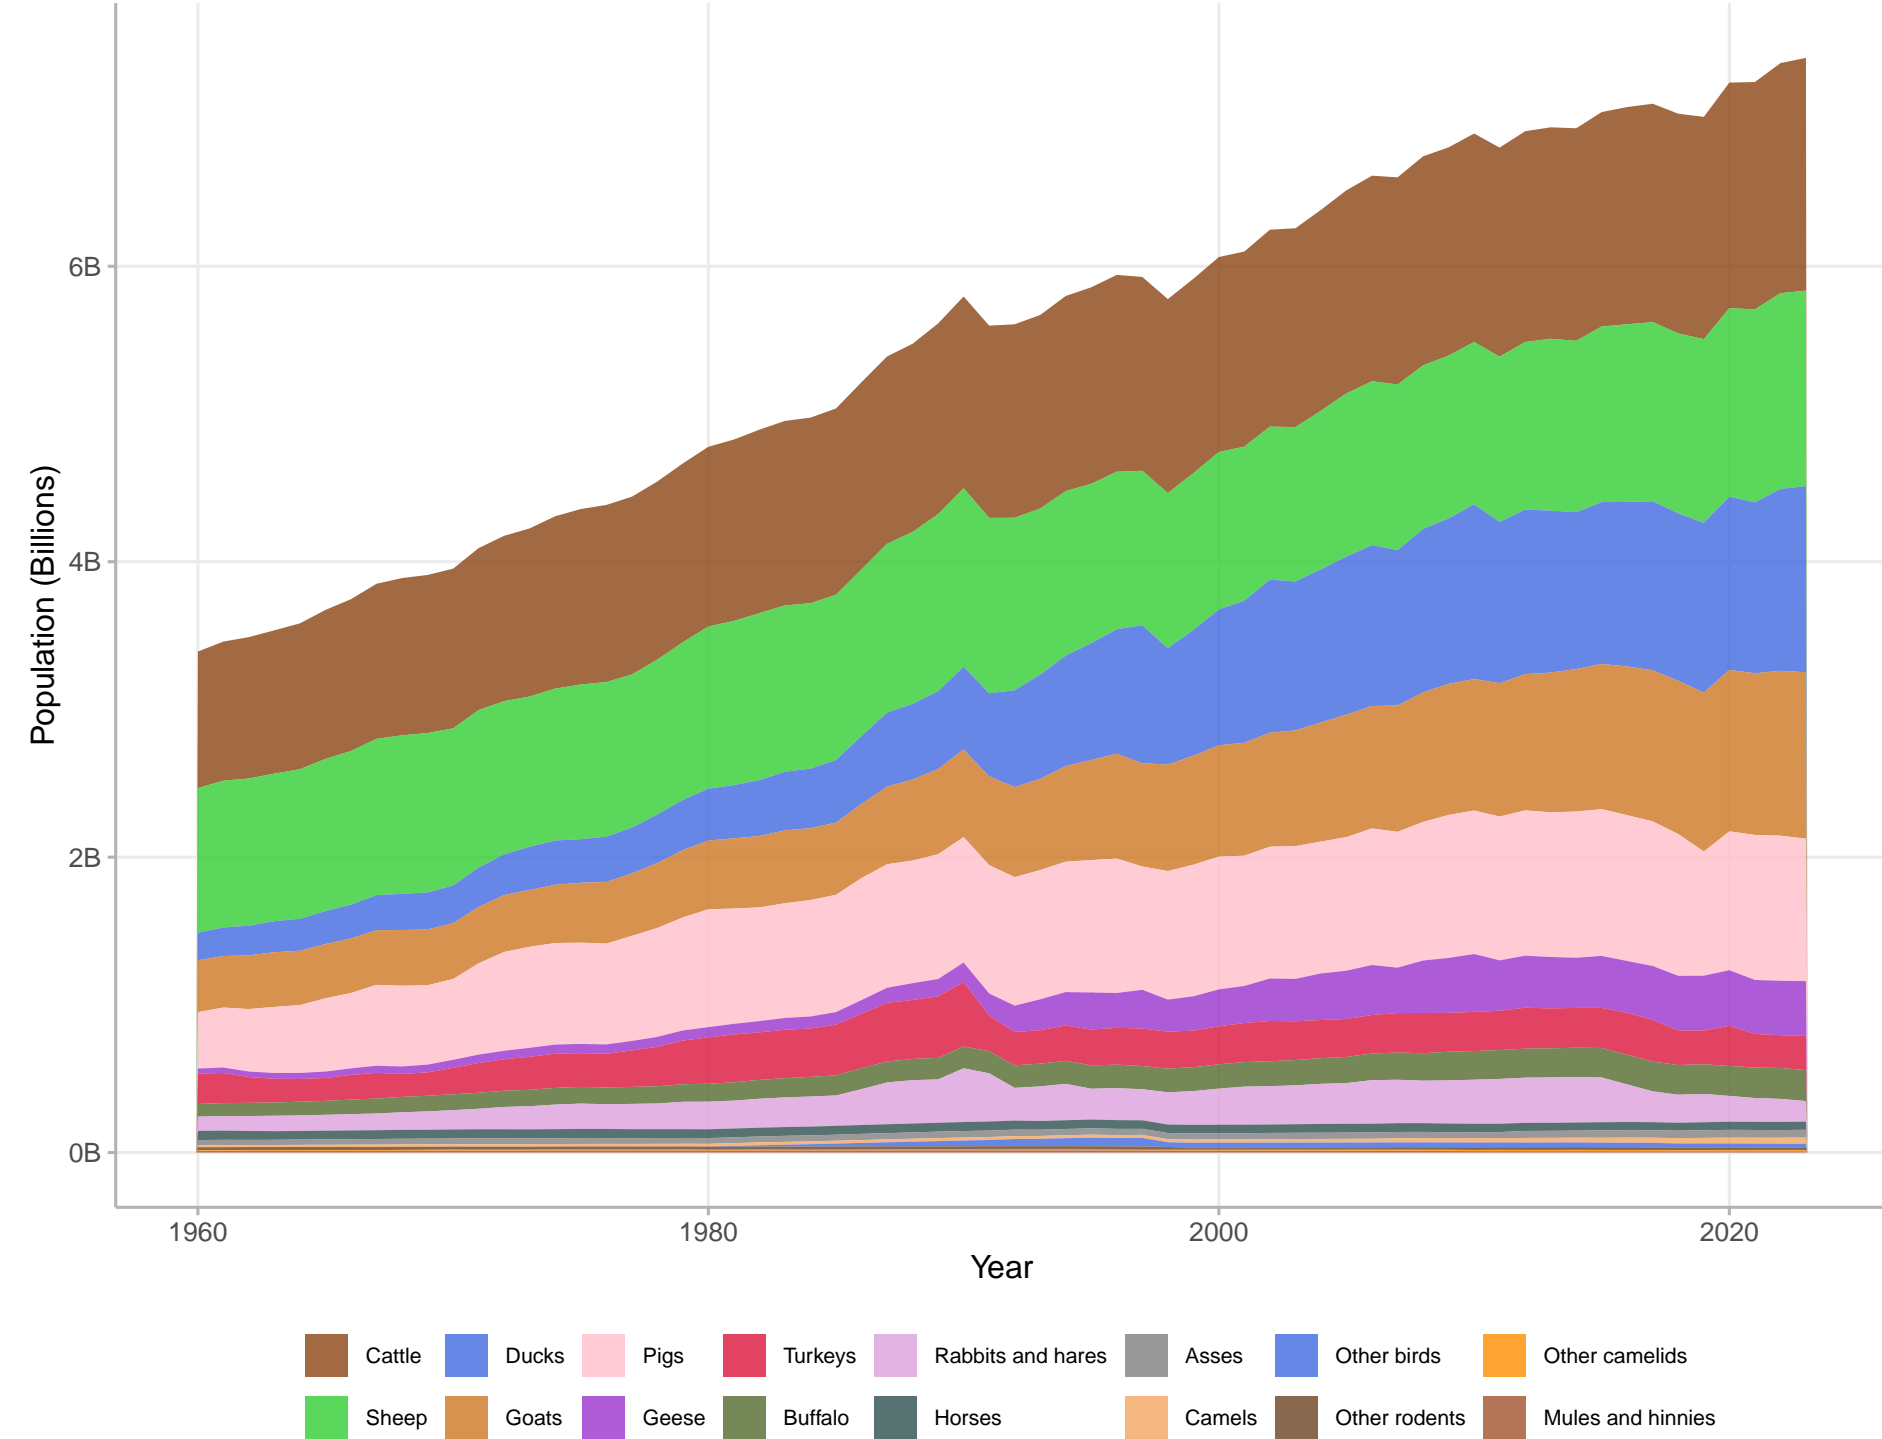

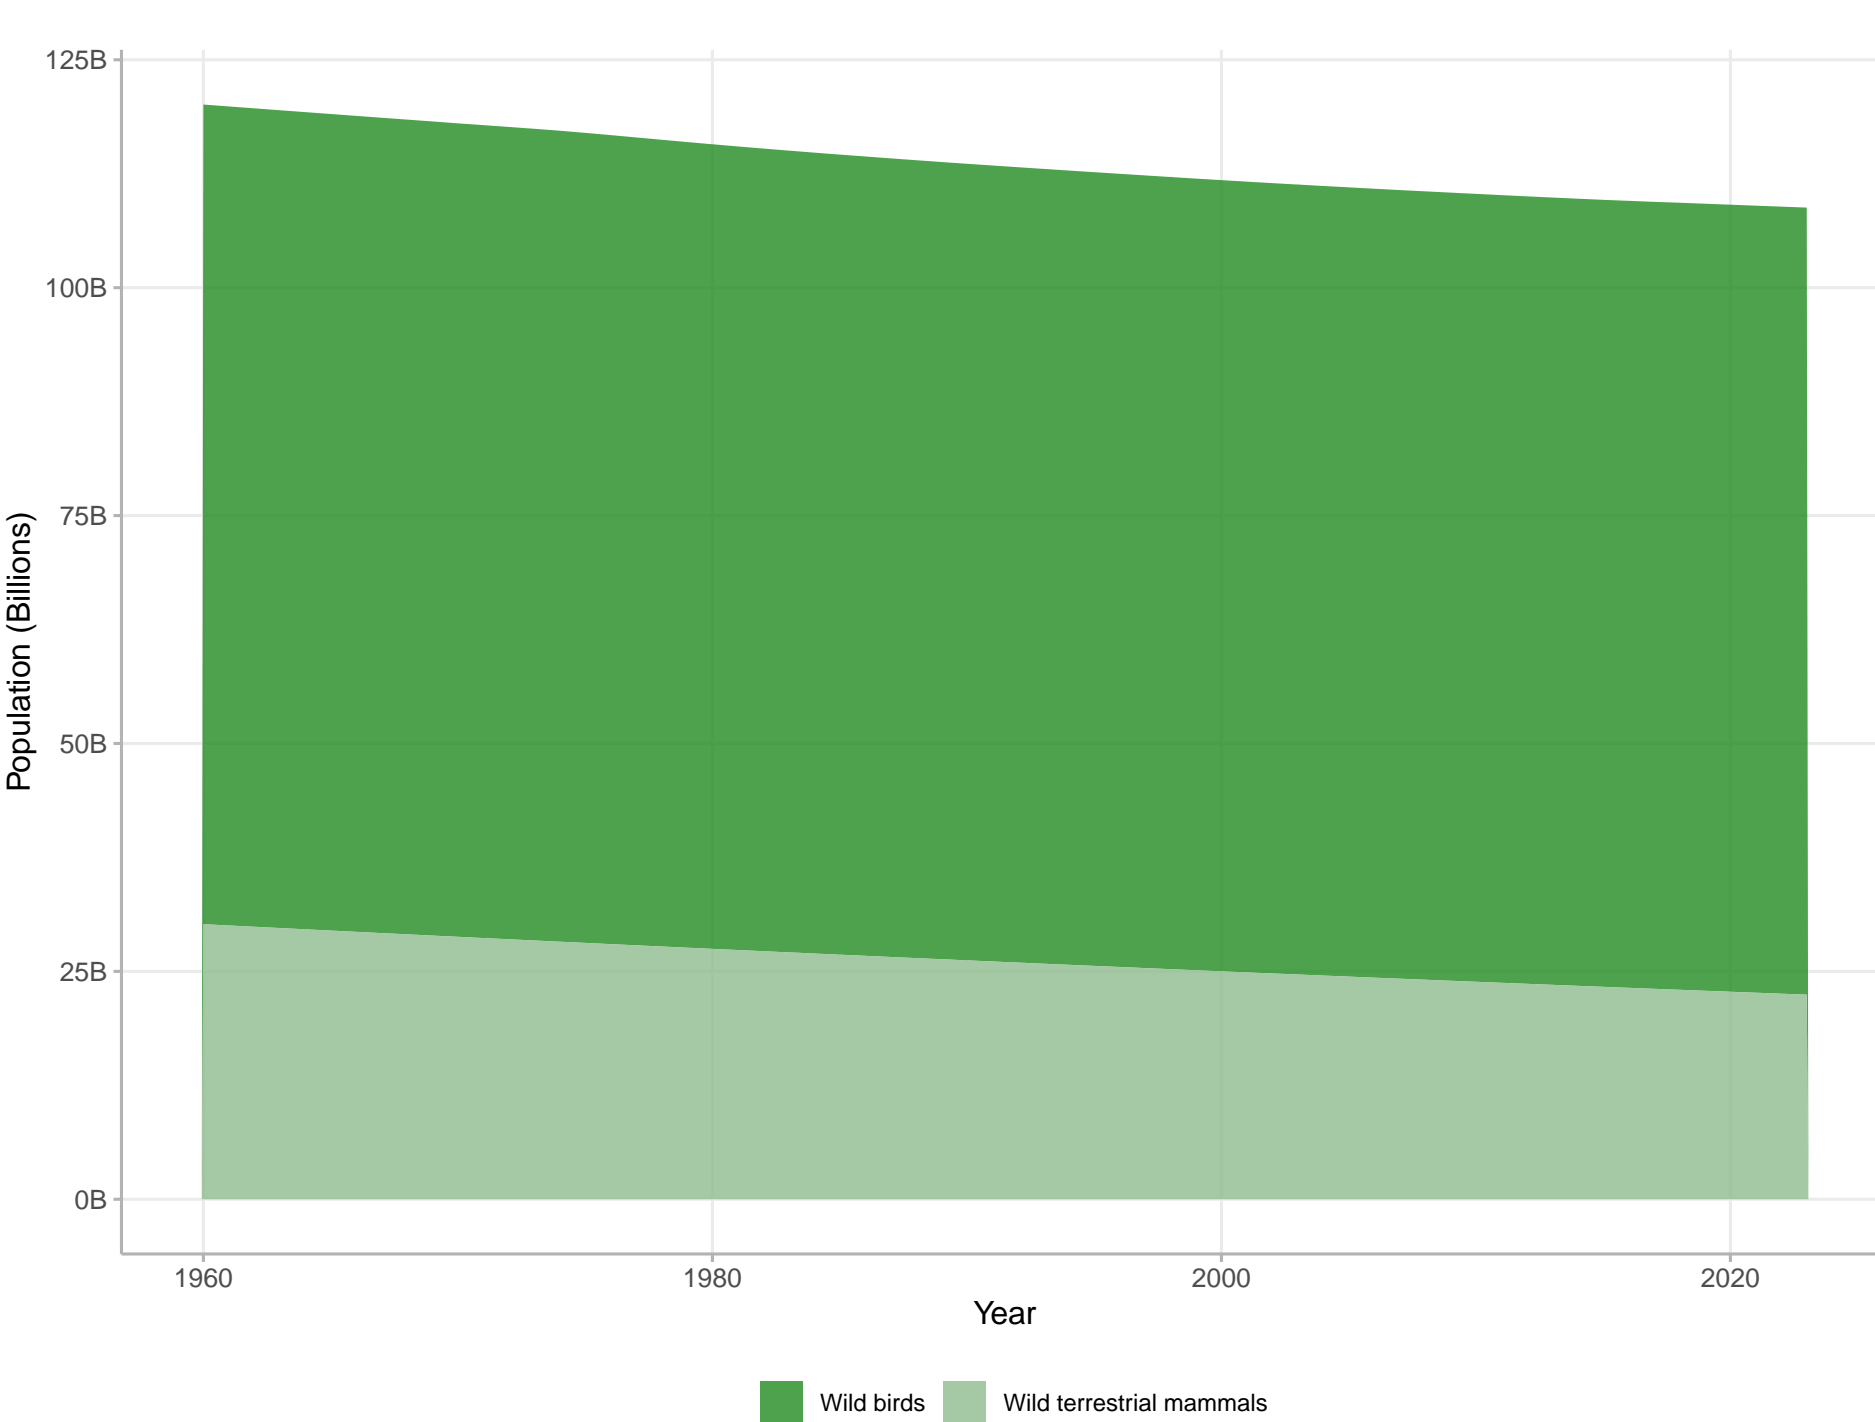

A. Population Treemap (2023)

Population by Animal Category (2023)
Excluding wild terrestrial arthropods, wild fish, and bees

B. Human Population Trends

C. Farmed Animals (All)

Fish | Cattle | Ducks | Pigs
Chickens | Sheep | Goats

D. Farmed Animals (No Fish/Chickens)

Cattle | Ducks | Pigs | Turkeys | Rabbits and hares | Asses | Other birds | Other camelids
Sheep | Goats | Geese | Buffalo | Horses | Camels | Other rodents | Mules and hinnies

E. Wild Animals

Wild birds | Wild terrestrial mammals

F. Relative Population Trends

Relative to baseline year reveals growth patterns

Farmed Animals

Humans

Wild Animals
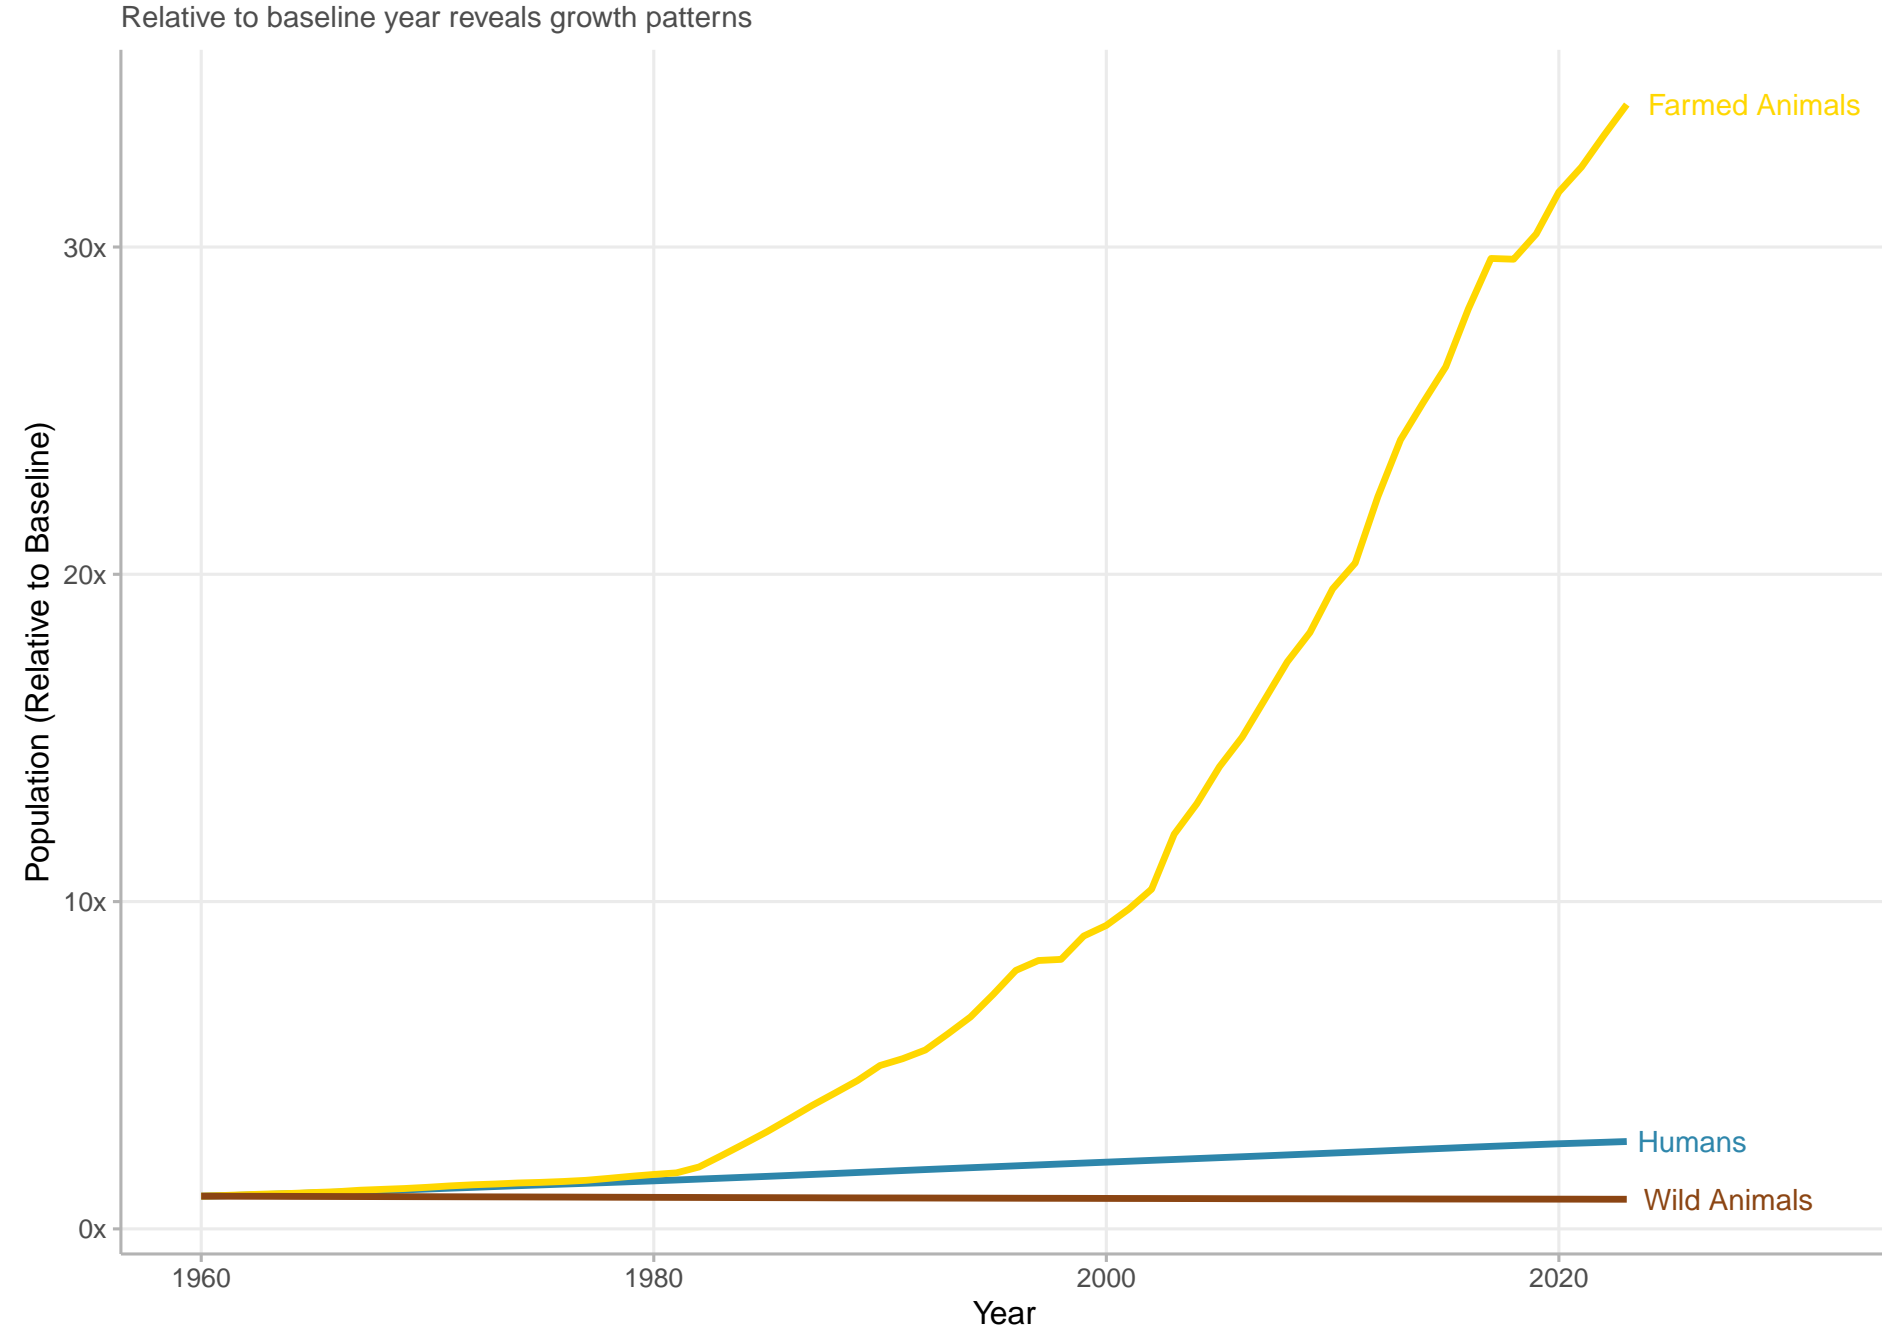

Note: Excludes wild terrestrial arthropods, wild fish, and farmed bees for clarity
